

K-Love inspires, motivates, and enriches my family around the clock at any time of the day.

K-Love motivates my family and helps us contribute to our local community and do the righteous things for the betterment of people and the future.

If K-Love were to be displaced, my family would lose a valuable tool that is inspirational daily. There would be an overall negative impact!

K-Love is the one voice on the radio that is constantly positive and inspirational to kids up to adults.

Families need a radio station that they can rely on that doesn't promote poor behavior, garbage music that is anti-government, anti-God, anti-love and anti-family.

I think our public interest is best served with more stations like K-Love that promote love, kindness, passion and care & concern for other people.
